Install Teams With Your Personal Account

This procedure allows you to download Teams, install it on your computer, create a personal account, and join the Montmorency Teams environment as a guest. Once you have received your Montmorency credentials, you will need to log out of your personal account and use your Montmorency account.

- Download and Install Teams
- Log in or Create a Personal Account
- Set up Your MFA (Multi-Factor Authentication)
- Technical Support

Download and Install Teams

1. To download Teams, go to <u>https://www.microsoft.com/fr-ca/microsoft-teams/download-app</u> and click on **Télécharger l'application de bureau** (Download the desktop app).

2. In the **Teams pour les particuliers section**, click on **Télécharger Teams** (Download Teams).

3. The installation file will then download via your browser. Once the download is completed, double-click on the **MSTeamsSetup_c_l_.exe** file to start the installation.

4. Once the installation is completed, Teams will be added to your taskbar. Right-click on the Teams icon and select **Épingler à la barre des tâches** (Pin to Taskbar).

Log in or Create a Personal Account

1. When you open it, a window will prompt you to log in to your account. Enter your login credentials.

<u>IMPORTANT</u>: Your username must be the email address used when registering with MIFI to access your Teams environment.

2. If you do not have a Teams account, create one by clicking on the blue link at the bottom of the authentication window.

<u>IMPORTANT</u>: Your username must be the email address used when registering with MIFI to access your Teams environment.

Set up Your MFA (Multi-Factor Authentication)

1. Once logged in, you will be asked to set up your multi-factor authentication (MFA). Press **Suivant** (Next).

2. Click on Je veux configurer une autre méthode (I want to set up a different method).

3. From the drop-down menu, select Téléphone (Phone) and click Confirmer (confirm).

Quelle méthode voulez-vous utiliser ? Téléphone \checkmark	Choisir une autre i	méthode $ imes$
